Angel Scrudder, Assistant Director

Welcome to Clear Brook High School's 3rd Annual Fall Dance Concert. The pieces in tonight's show are all works in progress. Our students have just begun their dance journey for the 2011-2012 school year. All Dance I classes have been studying ballet and basic choreography, as well as group spacial relationships. Our Dance II, III and IV students have continued their study of ballet and lyrical, as well as experiencing contemporary and modern motifs.

The purpose of tonight's concert is to give all the dance students an extension of the classroom and to let them experience the adrenaline of a stage performance. For some performers this will be their very first time to dance in a theater setting.

# *Movement and Motion*

Tonight's theme is strength. Each number in tonight's show is about the strength that humans have at some point in their life. We all go through hardships and heartaches.

Dance is a wonderful expression of emotions and serves as an outlet as well to release emotions in a productive way. Our students are learning that everyone has tough times, but it's how you deal with those times in life that determine your character, and in many cases, the outcome.

*Life isn't about waiting for the storm to pass.  
It's about learning to dance in the rain.*
